Work Experience

Logo Yazılım Software development assistant specialist
I developed layered architecture projects using mssql database in .net core.I have enhanced my skills in CI/CD processes, software architecture, clean code practices, agile project management tools (such as JIRA and Confluence), and software testing tools (Postman, SoapUI, and Swagger)

Kocaeli, Gebze
September 2024 - Current

Goart Worlds Software developer intern
During my internship, I designed a structure similar to the architecture of e-commerce sites with major changes. In the project, I implemented basic features such as homepage, search and purchasing using microservice structures. Throughout the project, I gained experience in API redirects using YARP API Gateway and running microservices in a container environment with Docker.

Kocaeli, Gebze
August 2024 - September 2024

Logo Yazılım Software developer intern
I made improvements on the E-logo ISG product. I made improvements on the product according to customer requests and demands. I used the Jira platform. I developed layered architecture projects using mssql database in .net core.
Jira, Stash bitBucket Entity Framwork Core .Net Core CI/CD

About

I'm Işıl, 4rd-year student at Kocaeli University.I am a strong, skillful, and self-organized juniordeveloper.
I believe that one of the most important things that an engineer should do is ,turning his/her theoretical knowledge
into the practise to solve real wold problems.As a junior developer, I'm focused on improving my skills in .Net Core backend development I have hands-on experience with C# frameworks .Net Core and Entity Framework Core .With a strong command of writing effective and clean code.

Projects

Fitness-web
The backend part of the project designed to gain the skills of creating a web page, creating and using a database Entity, service, controller, repository, responses, config, exception, request, security
Spring Boot PostgreSQL Hibernate ORM Spring MVC Swagger UI Java Bean Validation API

Spring, Java
Github

TechnicalSkills

Strongest Areas	Data Structures, Algorithms, Backend Development
Programming Languages	C#, Java, JavaScript, C, C++, SQL
Libraries/Frameworks	ASP.NET Core, Spring, React
Database	MsSQL, MySQL, MondoDB, PostqreSQL

Certificates

TÜBİTAK BİLGEM YTE Bootcamp 2023:Java Eğitimi	offers comprehensive training focused on the Java
Introduction to CyberSecurity CİSCO	teaches the fundamentals of cybersecurity and methods to handle cyber threats
Java (Basic) HackerRank	awarded upon successfully passing an assessment that measures basic Java skills
Versiyon Kontrolleri: Git ve GitHub BTK Akademi	teaches the usage of version control systems Git and GitHub

Education

Kocaeli University
Computer Engineering (4rd grade)   3,10/4
Throughout my education, I have gained experience by developing projects in various fields such as C. Java. Python, React, SQL and NoSQL.

Kocaeli , Izmit
2021 - 2025

Giresun Science High School   95.73/100

Giresun
2017 - 2021

Languages

English B2
I continue my education at the American Life language course
I am a participant in 2024 My English Opportunity with the Support of Hayırlı Sabancı
